#### Abstract

The NZ 1:500 Tile Index dataset provides a 1:500 scale index for aerial imagery and LiDAR datasets. This 1:500 tile index is part of a collection of indexes which are referenced to the [NZ 1:50k Tile Index](<https://data.linz.govt.nz/layer/104687>) dataset. Like the NZ 1:50k Tile Index, these larger scale indexes support mapping of NZ mainland and coastal areas up to 50m in depth. The dataset includes the following attributes: **\*\*index\_tile\_id\*\***: Unique identifier for the NZ 1:500 Tile Index table. **\*\*sheet\_code\_id\*\***: The corresponding sheet code of the NZ 1:50k Tile Index. **\*\*scale\*\***: The map scale of the index tiles. **\*\*tile\*\***: The combination of the row and column numbers of the index tiles. Related tile indexes: - [NZ 1:50k Tile Index] (<https://data.linz.govt.nz/layer/104687>) - [NZ 1:10k Tile Index] (<https://data.linz.govt.nz/layer/104690>) - [NZ 1:5k Tile Index] (<https://data.linz.govt.nz/layer/104691>) - [NZ 1:2k Tile Index] (<https://data.linz.govt.nz/layer/106966>) - [NZ 1:1k Tile Index] (<https://data.linz.govt.nz/layer/104692>)

#### Purpose

Aerial imagery and LiDAR datasets available on the LINZ Data Service may be produced as a result of different aerial flights spanning different regions, flown over multiple years, and at different resolutions and scales. As a result, each dataset may require scale appropriate index tile boundaries which best suit the data being published. The NZ 1:500 Tile Index data described here provides a consistent 1:500 scale index to be used across multiple datasets to support mapping of NZ mainland and coastal areas.

#### Lineage

LI\_ Lineage  
Statement  
The NZ 1:500 Tile Index, along with the 1:1k, 1:2k, 1:5k and 1:10k datasets, consist of sub-tiles derived from the base NZ 1:50k Tile Index. The [NZ 1:50k Tile Index] (<https://data.linz.govt.nz/layer/104687>) itself is only partially related to the [NZ LINZ Map Sheets (Topo, 1:50k)] <https://data.linz.govt.nz/layer/50295> in that it does not contain overlapping tiles and includes additional tiles in coastal areas. However, both of these use the same tile naming convention.
