

NZ Native Polygons (Topo, 1:250k)

Title	NZ Native Polygons (Topo, 1:250k)
Creator	LINZ - Land Information New Zealand
Date	2009-09
Description	<p>A tract of land covered by trees native to New Zealand. Data Dictionary for native_poly: https://docs.topo.linz.govt.nz/data-dictionary/tdd-class-native_poly.html This layer is a component of the Topo250 map series. The Topo250 map series provides topographic mapping for the New Zealand mainland and Chatham Islands, at 1:250,000 scale. Further information on Topo250: http://www.linz.govt.nz/topography/topo-maps/topo250</p>
Source	<p>LINZ and our predecessors have been responsible for national topographic mapping in New Zealand for more than a hundred years. The first digital data at 1:250,000 scale was created in the late 80's by scanning the 1:250,000 maps that existed at the time (known as the NZMS 262 series, which replaced the earlier NZMS 18 series) The NZMS 262 series were generalised from the NZMS 260 series. The Topo250 map series are compiled from a mix of information from the NZMS 262 series, and that from the Topo50. LINZ releases regular updates of the Topo250 maps and data. Details are posted at http://www.linz.govt.nz/docs/topography/250-sheet-history.xls</p>
