

NZ Canal Centrelines (Topo, 1:500k)

Title

NZ Canal Centrelines (Topo, 1:500k)

Creator

LINZ - Land Information New Zealand

Date

2010

Description

An artificial open waterway used for transportation, waterpower or irrigation. Data Dictionary for canal_cl: http://apps.linz.govt.nz/topo-data-dictionary/index.aspx?page=class-canal_cl
This layer is a component of the Topo500 data. The Topo500 map series will, when it is created, provide updated topographic mapping for the New Zealand mainland at 1:500,000 scale.

Source

LINZ and our predecessors have been responsible for national topographic mapping in New Zealand for more than a hundred years. The first digital data at 1:500,000 was created in 2009 by generalising the Topo250 data. At present, only the digital data is available, LINZ has not produced new maps from the updated data. Printed maps (the NZMS 242 series) first published in the 1980's are available. These will be withdrawn once printed Topo500 maps are published.
