

# NZ Rock Polygons (Topo, 1:500k)

## Title

NZ Rock Polygons (Topo, 1:500k)

## Creator

LINZ - Land Information New Zealand

## Date

2010

## Description

Coastal rocks; rocks between high and low tide Data Dictionary for rock\_poly:  
[http://apps.linz.govt.nz/topo-data-dictionary/index.aspx?page=class-rock\\_poly](http://apps.linz.govt.nz/topo-data-dictionary/index.aspx?page=class-rock_poly) This layer is a component of the Topo500 data. The Topo500 map series will, when it is created, provide updated topographic mapping for the New Zealand mainland at 1:500,000 scale.

## Source

LINZ and our predecessors have been responsible for national topographic mapping in New Zealand for more than a hundred years. The first digital data at 1:500,000 was created in 2009 by generalising the Topo250 data. At present, only the digital data is available, LINZ has not produced new maps from the updated data. Printed maps (the NZMS 242 series) first published in the 1980's are available. These will be withdrawn once printed Topo500 maps are published.

## Coverage

-47.2427611308 166.260471435 -34.0069923028 178.888247161
