Abstract

This layer provides all authoritative arc survey observations and is targeted at cadastral surveyors. Only observations that have been captured in Landonline are available. This includes vectors that were re-captured in the Survey Capture Areas from survey plans lodged prior to Landonline and all survey observations since. Individual cadastral surveys will commonly re-measure or re-use cadastral lines. Often they will be the same, however as the accuracy capability has increased over time, differences between 'old' and 'new' observations are more likely. Thus all survey observations include the reference to the Survey Plan.

Purpose

This layer provides all authoritative arc survey observations and is targeted at cadastral surveyors.
