

# Niue Quarry Polygons (Topo, 1:50k)

## Title

Niue Quarry Polygons (Topo, 1:50k)

## Creator

LINZ - Land Information New Zealand

## Date

2014

## Description

An excavation or pit, usually open to the air, from which building stone or the like is obtained by cutting, blasting etc Data Dictionary for quarry\_poly: [http://apps.linz.govt.nz/topo-data-dictionary/index.aspx?page=class-quarry\\_poly](http://apps.linz.govt.nz/topo-data-dictionary/index.aspx?page=class-quarry_poly) This layer is a component of the Topo50 map series. The Topo50 map series provides topographic mapping for New Zealand and it's offshore dependancies, at 1:50,000. Further information on Topo50: <http://www.linz.govt.nz/topography/topo-maps/topo50>

## Source

LINZ and our predecessors have been responsible for national topographic mapping in New Zealand and it's offshore dependancies for more than a hundred years. The raw data for the Pacific Islands of Tokelau, Niue and the Cook Islands was created by photogrammetrists who in the 1970's and 80's mapped the islands from overlapping pairs of aerial photographs. Cartographers then took the data and added symbols and text, and created the colour separations needed to produce printed maps (the NZMS272 series) In 2013 and 2014 LINZ used 2006 satellite imagery, information from the Department of Lands & Survey, Niue, and local knowledge to update the data for Niue. Printed maps (in hardcopy and digital form) are also available.
