Title

Nelson and Tasman LiDAR Index Tiles (2008-2015)

Date

Abstract

This layer contains the Index Tiles for LiDAR data from the Nelson and Tasman region captured between 2008 and 2015. The Digital Surface Model has not been included because of the varying timeframes of the base datasets. There are also small gaps between most datasets. - The DEM is available as layer [Nelson and Tasman LiDAR 1m DEM (2008-2015)] (<http://data.linz.govt.nz/layer/95817-nelson-and-tasman-lidar-1m-dem-2008-2015/>). - The LAS point clouds and vendor project reports are available from LINZ on request (imagery@linz.govt.nz). Lidar was captured for Nelson City Council and Tasman District Council by New Zealand Aerial Mapping, Aerial Surveys and AAM New Zealand between May 2008 and December 2015. Data management and distribution is by Toitū Te Whenua Land Information New Zealand. Data comprises: - DEM: tif or asc tiles in NZTM2000 projection, tiled into a 1:1,000 tile layout Vertical datum is NZVD2016.

Statement

This is a collection of historical datasets supplied from Nelson City Council and Tasman District Council captured between 2008 and 2015. Only the Digital Elevation Model is provided, the Digital Surface Model has not been included because of the varying timeframes of the base datasets. This layer has been modified to account for overlaps between datasets and is a combination of 31 different datasets. Where there were overlaps between datasets, newer datasets have been given priority over older datasets, where possible. There are also small gaps between most datasets. Lakes and large rivers were hydroflattened in the Bare Earth Digital Elevation Model. This DEM layer is made up of the following datasets; NCC2015BryantRange NCC2014Saxton NCC2014WakapuakaFlats NELSON_CC_2014-2015 NELSON_CC_2015-2016 TDC2008Mapua TDC2008Motueka TDC2009Richmond TDC2009Takaka TDC2010StArnaud TDC2010TasmanWaimeaEstuary TDC2010TakakaHillWesternSide TDC2010LigarBay TDC2011BrightwaterExtension TDC2011Collingwood TDC2011JamesRoad TDC2011LeeDam TDC2011Kaiteriteri_Marahau TDC2012Moutere TDC2012Murchison TDC2012UpperMotuekaRiverFaultTrace TDC2012WakefieldExtension TDC2013Motupiko TDC2013Tapawera TDC2013Wai-iti TDC2013Wai-itiFaultlineExtension TDC2014Ngatimoti TDC2014TakakaHillEasternSide TDC2014TakakaValley TDC2015Dovedale TDC2015TeapotValley Breaklines have been used where required to ensure hydroflattening on the DEM products.
