### Abstract

**\*\*Please read:\*\***This comprehensive address dataset provides all allocated addresses as advised to LINZ by Territorial Authorities (TAs). Under the Local Government Act 1974 (section 319) it is the responsibility of the TAs to advise LINZ (the Surveyor General) of all allocated addresses in their district. \_\_\_\_\_ Local Government Act 1974 **\*\*319B Allocation of property numbers\*\*** (1) For electoral, postal, and other purposes the council may allocate a number to any area of land or building or part of a building within its district and may change the number allocated to any such area of land or building. (2) The council shall comply with any request from a Chief Surveyor to allocate a number to or change the number of any area of land or building or part of a building in its district. (3) The principal administrative officer shall advise the Chief Surveyor of the land district in which the land or building is situated of the numbers allocated under subsection (1) or subsection (2). \_\_\_\_\_ This comprehensive address dataset includes eight data tables and nine lookup tables. The dataset has been sourced from LINZ's Address Information Management System (AIMS), a centralised database for the management of national addresses, including for electoral purposes. This set of normalised tables replaces the single [Landonline: Street Address dataset](https://data.linz.govt.nz/layer/52054). For a simplified version of the data contained within these tables see [NZ Street Address] (https://data.linz.govt.nz/layer/53353). Please refer to the [Street Address Data Dictionary] (https://data.linz.govt.nz/document/12627) for detailed metadata and information about this layer.

### Purpose

This set of related data tables and associated look-up tables provides more complex address information and has been designed for advanced applications.
