Hydrographic Overview (1:1.5mil and Smaller) Vector Dataset

**Date****Other Citation Details**

The hydrographic data available through the LINZ Data Service is based on official Electronic Navigational Charts (ENCs) published by the New Zealand Hydrographic Authority. It should be noted that due to the translation process, some characteristics of the S-57 data may not convert correctly to formats downloaded from this site. This data: does not replace official ENCs; should not be used for navigation; are not corrected for Notices to Mariners. For navigation, mariners should use official New Zealand ENCs as available from chart retailers.

**Abstract**

This dataset is a collection of NZ Hydrographic Authority vector layers at the Overview (1:1.5m – smaller) scale, and has been designed to allow you to quickly view and download this collection of related layers. NZ Hydrographic Authority vector datasets are available for layers covering the Overview, General, Coastal, Approach, and Harbour scale bands, which range from 1:4000 scale to greater than 1:1,500,000 scale. Sets of all Chart images are also available. See all available [Hydrographic Sets](<https://data.linz.govt.nz/sets/category/hydrographic-maritime/>). THIS DATA DOES NOT REPLACE NAUTICAL CHARTS AND MUST NOT BE USED FOR NAVIGATION. Note: This set contains layers at a variety of scales. Use of LDS web feature services for this set is not recommended as the scaled layers overlap. This data is based on the S-57 data format used in Electronic Navigational Charts (ENCs) published and maintained by the New Zealand Hydrographic Authority at Land Information New Zealand (LINZ). Refer to the following link for information about S-57 data: <http://www.linz.govt.nz/hydro/regulation/>

**Purpose**

The hydrographic data available through the LINZ Data Service is based on official Electronic Navigational Charts (ENCs) published by the New Zealand Hydrographic Authority. It should be noted that due to the translation process, some characteristics of the S-57 data may not convert correctly to formats downloaded from this site. This data: does not replace official ENCs; should not be used for navigation; are not corrected for Notices to Mariners. For navigation, mariners

should use official New Zealand ENC's as available from chart retailers.
