Abstract

This dataset was created by Toitū Te Whenua Land Information New Zealand to be used in conjunction with the [Fire and Emergency NZ Localities dataset] (<https://data.linz.govt.nz/layer/104830-fire-and-emergency-nz-localities/>) to identify and provide official locality names where a name exists in the New Zealand Gazetteer. The Fire and Emergency NZ Localities dataset currently contains many names that are not the official names for those features, suburbs or localities. The New Zealand Geographic Board (Ngā Pou Taunaha o Aotearoa) Act 2008, [Section 32] (<http://www.legislation.govt.nz/act/public/2008/0030/30.0/DLM1065412.html>) requires all official documents to identify names which are not the official place names as recorded in the [New Zealand Gazetteer](<https://gazetteer.linz.govt.nz/>). As such this table identifies locality names and the matching official name where an official name in the Gazetteer exists, but Locality name differs from it. It does not take into account any differences in Locality boundaries and the boundary definition of place names in the Gazetteer. This table is a best endeavour and not comprehensive, but will improve over time. Feedback can be sent to linzdataservice@linz.govt.nz

Purpose

To identify names in the Fire and Emergency NZ Localities dataset and the matching New Zealand Gazetteer official name where an official name exists, but locality name differs from it.

Statement

This table was created by finding all NZ Locality names which don't match any names in the New Zealand Gazetteer within a 5km buffer of the locality. These unmatched localities were then manually checked against official names in the 5km buffer area to identify the localities that don't use an official name where one exists in the Gazetteer. The full Gazetteer place names dataset can be downloaded from <https://data.linz.govt.nz/group/nz-gazetteer/data/>
