

Landonline: Observation Set

Title	Landonline: Observation Set
Creator	Toitū Te Whenua Land Information New Zealand
Date	2013-09
Description	<p>**Please read:** This table is part of the comprehensive Full Landonline Dataset and is designed for use only by data professionals who require the complex version of our property ownership and boundary data for advanced uses. ***** A collection of observations which are related in some way which is useful for administration or to simplify processes. An example is a set of theodolite directions. These all have a common orientation uncertainty and are grouped as such in a network adjustment. Please refer to the [LDS Full Landonline Data Dictionary and Models] (https://data.linz.govt.nz/document/95) for detailed metadata about this table.</p>
