Landonline: Encumbrance

##### Date

##### Abstract

**\*\*Please read:\*\*** This table is part of the comprehensive Full Landonline Dataset and is designed for use only by data professionals who require the complex version of our property ownership and boundary data for advanced uses. For a simplified version of data contained within this table see our [property ownership and boundary data](<https://data.linz.govt.nz/data/category/property-ownership-boundaries/>). \*\*\*\*\* An encumbrance is an interest in the land (eg, mortgage, lease). Please refer to the [LDS Full Landonline Data Dictionary and Models] (<https://data.linz.govt.nz/document/95>) for detailed metadata about this table.

##### Purpose

The Full Landonline Dataset is specifically intended to cater for those users who have a requirement to access large volumes of data on a regular basis. The extract allows the recipient to recreate the database held in Landonline. It does not enhance the data in any way, other than to make it available in a standard formats. Entire table views are exported. Consequently, the extracted data covers the entire country, rather than individual areas or pre-defined geographic extents.
