

NZ Roads: Road Name Class

Title	NZ Roads: Road Name Class
Creator	Toitū Te Whenua Land Information New Zealand
Date	2015-11-15
Date	2015-12-07
Description	<p>**Please read:** This is the look-up table for Road Name Class and is part of the [set of NZ Roads tables] (https://data.linz.govt.nz/set/88). The Road Name Class look-up table is used by the following tables; NZ Roads: Road Name. The NZ Roads dataset includes eight data tables and eleven lookup tables. The dataset has been sourced from LINZ's NZ Roads database, a database for the management of national roads, including those managed for addressing purposes. This set of normalised tables replaces the Landonline: Road Centre Line layer and the Landonline: Road Name and Landonline: Road Name Association tables currently published on LDS. These centrelines are required to indicate the presence of an authoritative road name. Named centrelines are not intended to represent the exact location of a road formation. Named centrelines do not indicate the presence of legal access. For a simplified version of the data contained within these tables see [NZ Roads (Addressing)](https://data.linz.govt.nz/layer/3382), which aggregates geometries based on road name, and [NZ Roads Subsections (Addressing)] (https://data.linz.govt.nz/layer/3383), which holds the individual geometries. Please refer to the [NZ Roads Data Dictionary](https://data.linz.govt.nz/document/1628) for detailed metadata and information about this layer.</p>
Source	Sourced from the Landonline database system which was made operational in 2001, maintained in the NZ Roads database from November 2016.
